AT BROOKLANDS

MAINTENANCE, INSTALLATION & REPAIR FOR ENGINEERING & MANUFACTURING

**Manufacture
your future**

WHAT ARE T-LEVELS?

T LEVELS COMBINE CLASSROOM LEARNING WITH REAL-WORLD EXPERIENCE.

These two-year courses are designed to equip you with the skills and knowledge employers demand.

- ◆ Level 3 qualification
- ◆ 2-year programme
- ◆ 9-week minimum industry placement

COURSE HIGHLIGHTS:

Industry-level equipment

Real-world experience

Newly refurbished engineering workshops

LEARN HOW TO:

- ◆ Understand the fundamentals of production processes including materials, tools and quality control
- ◆ Operate, maintain and troubleshoot a variety of manufacturing equipment
- ◆ Learn about the latest advancements in automation and robotics within the industry
- ◆ Use CAM software for efficient production planning and control
- ◆ Study safety practices and regulations in the manufacturing environment
- ◆ Discover methods for ensuring consistent product quality
- ◆ Analyse data to identify and address production efficiencies

WHERE COULD YOU GO?

- ◆ Auto-electrician
- ◆ Engineering Maintenance Technician
- ◆ Marine Engineering Technician
- ◆ Mechanical Engineering Technician
- ◆ Motor Mechanic
- ◆ Roadside Assistance Technician
- ◆ Telecoms Engineer

ENTRY REQUIREMENTS

LEVEL 3 T LEVEL:

4 GCSEs at grade 4-9
(including English and maths).
